SAMUEL D. ANDERSON

Technical Specialist | Systems, CAD & Industrial Equipment

Weirton, WV 26062 | hfront.us | sdandloff@gmail.com | Open to Relocation

Available for day shifts, weekends, and overtime (overnight/night shift availability limited)

Valid driver's license with reliable transportation

PROFESSIONAL SUMMARY

I diagnose and fix things, from networks to industrial machines. Formal training in welding and fabrication, hands-on repair of industrial equipment, and a background in computer systems, networking, and aerospace CAD coursework. Graduated from New Castle School of Trades in April 2026 (Diploma in Combination Welding, 3.65 GPA, academic scholarship). Currently combines warehouse and logistics work with equipment troubleshooting and repair at Steelmax (SMX Industrial). Open to relocation and roles in IT/help desk, systems support, manufacturing, industrial maintenance, or related technical fields.

CORE QUALIFICATIONS

- **Technology & Systems:** Computer systems and network configuration coursework; freelance setup and troubleshooting
- **Design & CAD:** SolidWorks and Onshape, including part modeling, assemblies, and drawing creation
- **Equipment Operation & Repair:** Troubleshooting and repair of pipe bevelers, automatic welders, torch cutters, and plasma cutters; forklift operation
- **Welding & Fabrication:** SMAW, GMAW, GTAW, FCAW, and non-ferrous welding on plate and pipe; oxy-fuel, carbon arc, and plasma cutting
- **Technical Reading & Planning:** Blueprint and schematic reading, welding mathematics, fabrication planning, and quality/process documentation
- **Logistics & Inventory:** Freight receiving, outbound pallet building, Bill of Lading (BOL) documentation, and inventory accuracy
- **Safety & Reliability:** Strong shop safety habits, dependable attendance, and a valid driver's license with reliable transportation

PROJECTS

Porchlight — Open-source YouTube Music desktop client github.com/Homefronts/Porchlight

- Community edition of YTubic by Homefronts, built on YTubic by NUber (formerly YTubic Plus)
- Looks, layouts, logo, and brand assets for a desktop client that talks to YouTube Music directly

The Loadout — Personal AI/tech newsletter theloadout.fyi

- Writes and publishes The Loadout: what’s new in AI, and whether you should care

pingFlash — Vencord Discord plugin github.com/Homefronts/pingFlash

- Shows a pulse on the server that pinged you; hover reveals user, channel, and message text

PROFESSIONAL EXPERIENCE

Steelmax (SMX Industrial) — Bridgeville, PA **04/2026 – Present**

Warehouse & Freight Operations / Machine & Tool Repair

- Receive incoming freight, build outbound pallets, and generate Bill of Lading (BOL) documentation for shipments
- Count, stock, and maintain inventory accuracy across the warehouse
- Troubleshoot and repair industrial fabrication equipment, including pipe bevelers, automatic welders, automatic torch cutters, and plasma cutters
- Operate and test repaired equipment to confirm proper function prior to shipment or return to service

Independent Tech Support (Informal) **2022 – Present**

Unpaid technical support for personal network

- Provided ongoing technical support to 10+ people in my personal network: diagnosing slow PCs, removing viruses and malware, fixing Wi-Fi, router, and printer issues, and troubleshooting phones. Built and upgraded desktop PCs (parts selection, assembly, OS install, drivers). Worked each issue from diagnosis to fix to verification, and explained fixes in plain language.

EDUCATION & TECHNICAL TRAINING

New Castle School of Trades — East Liverpool, OH **Apr 2025 – Apr 2026**

Diploma in Combination Welding

- 3.65 cumulative GPA; awarded academic scholarship for outstanding class performance and quality of work
- Core coursework: Welding Fabrication, Welding Mathematics, Oxy-Fuel Cutting, SMAW, GMAW, GTAW, FCAW, Non-Ferrous Welding, Plasma & Arc Cutting, Pipe & Welding Blueprint Reading, MIG/TIG/Stick Pipe Welding

Traviss Technical College — Bartow, FL **2021 – 2022**

Diploma in Computer Systems & Information Technology (CSIT)

- Coursework in computer systems and network configuration; completed freelance network setup and troubleshooting projects

Central Florida Aerospace Academy — Lakeland, FL **Aug 2017 – May 2021**

Diploma — Aerospace & Engineering Coursework

- High school aerospace academy program combining core academics with hands-on engineering coursework
- Gained intermediate-level CAD experience in SolidWorks, including part modeling, assemblies, and drawing creation

WELDING CREDENTIALS & CERTIFICATIONS

- Qualified Positions — Plate: 1G, 2G, 3G, 4G | 1F, 2F, 3F, 4F
- Qualified Positions — Pipe: 1G, 2G, 5G, 6G | 1F, 2F, 4F, 5F, 6F (pipe-to-plate)
- Certified: 3F vertical fillet weld on backing plate, SMAW process

ADDITIONAL WORK EXPERIENCE

Vidacann — Lakeland, FL **04/2024 – 05/2024**

Dispensary Associate — processed transactions and managed inventory under Florida compliance regulations

Chick-fil-A — Lakeland/Zephyrhills, FL **12/2019 – 11/2023**

Team Member / Training Coach — trained and onboarded new employees in a fast-paced environment

Callahan's Tack & Feed — Lakeland, FL **05/2019 – 12/2019**

Loader — loaded/unloaded delivery trucks, managed inventory, and processed customer payments
